**Chelmsford MRI** - This one-of-a-kind MRI facility sits atop a 120,000 pound slab of concrete that floats on four 12" hydraulic springs. The design of this pneumatic device came as the answer to how to produce clean MRI images with the severe vibration from the traffic outside.

**Merrimack Valley MRI**

**Shields/Peabody MRI**

**Portsmouth Regional MRI**

**Holy Family Open Speed MRI**
