

Cheryl Wilson

Controller

Cheryl is our gatekeeper for all project financial information. She's the one who ensures all project costs are on target and are controlled by project managers. As Controller of Sullivan Construction, Cheryl is responsible for all of the accounting functions, including receivables, payables, job costing and long-term planning. In addition, she oversees Human Resources and Computer Services.

With 16 years' experience in the construction industry, Cheryl has held the positions of Office Manager, Accounting Assistant and Controller. At Sullivan Construction, we believe all members of our team need to understand our business and the services we provide, whether his or her tool is the hammer or the pen.
